

Assignment 1.7: Perimeter & Area

Show all work to receive full credit.

1. Classify each shape by the number of sides it has and determine whether it is convex or concave.

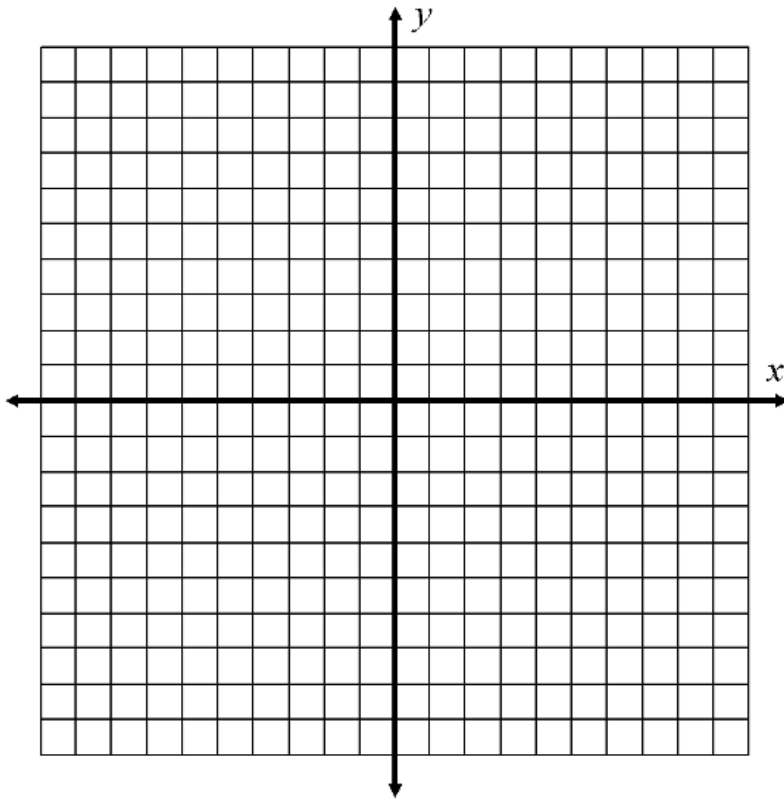

2. Find the perimeter and area of quadrilateral $PQRS$ with the vertices $T(0,-2)$, $U(3,5)$, and $V(-3,5)$.

Perimeter=_____ Area = _____

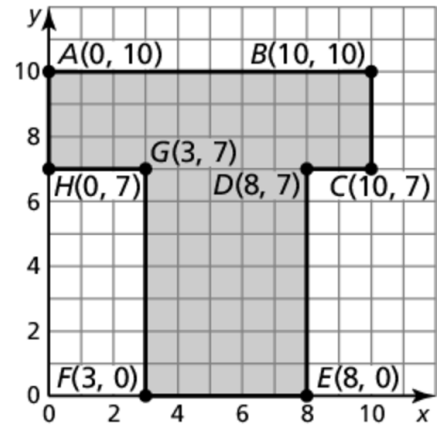

3. Find the perimeter and area of quadrilateral $PQRS$ with the vertices $P(2,4)$, $Q(2,3)$, $R(-2,-2)$, and $S(-2,3)$.

Perimeter=_____ Area = _____

4. You are buying tile for your bathroom floor and baseboards for your bathroom walls. In the figure, the entire polygon represents the layout of the floor. Each unit in the coordinate plane represents 1 foot.

a) Find the area of the floor.

b) If the cost of tile is \$2.50 per square foot, how much will it cost to tile your bathroom?

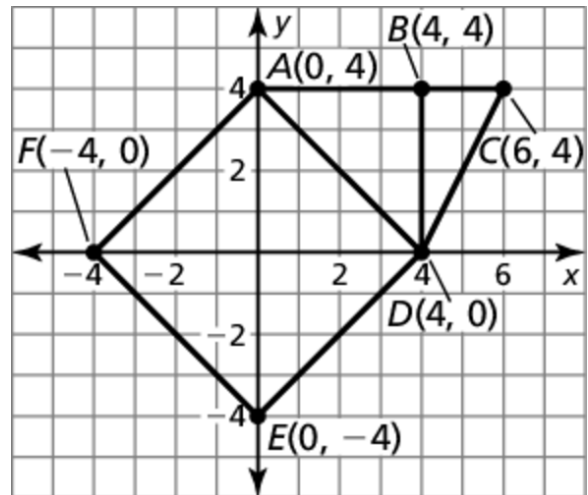

c) Find the perimeter of the floor.

d) If the cost of the baseboard to go around the perimeter is \$2 per foot, how much will it cost to put baseboard on your bathroom floor?

5. Use the image below to answer the following:

a. Find the perimeter of the square ADEF.

b. Find the perimeter of the triangle BCD.

c. Find the area of square ADEF.

d. Find the area of triangle ACD.

e. Find the area of triangle BCD.

f. Find the area of pentagon ACDEF.
